

PRESS RELEASE- For Immediate Release

Delcan Recognized by ReNew Canada with a Platinum Badge

Canada, January, 20, 2012– Delcan, an award winning, multi-disciplinary engineering, planning and technology firm, has been recognized by ReNew Canada in their Top 100 Badge Program for the third year in a row.

The Top 100 Badge Program was developed to help companies celebrate their involvement in Canada's biggest projects. This year's Top 100 Infrastructure Projects list represents more than \$114 billion in infrastructure investment for Canada.

For the second year in a row Delcan was awarded with a Platinum Badge for their work on more than ten major projects.

Delcan projects and roles listed in ReNew Canada 2012 Top 100 list:

- **CentrePort Canada Highways**, Independent Design Review
- **Eglinton Crosstown Light Rail Transit**, Program and EA Management
- **Georgetown South Track Layout and Grading Design Assignment**, Design, Engineering during construction and Engineer of Record - Weston Tunnel
- **Ottawa Light Rail Project Phase 1**, LRT planning, EA, Design
- **Port Mann/Highway 1 Project**, Program Engineering
- **South Fraser Perimeter Road (SFPR) Project**, Program Engineering
- **Southeast Stoney Trail Project**, Independent Design Review
- **Spadina Subway Extension**, Project Management
- **Union Station Train Shed Revitalization Project**, Concept, Design & Construction Management
- **West Toronto Diamond/Rail Grade Separation Project**, Design, Engineering during construction and Engineer of Record
- **York VIVA Bus Rapid Transit (Vivanext) Project**, Planning and Design

"We are honored that Delcan's contributions to Canada's Infrastructure continue to be recognized by ReNew Canada," said Dr. Jeneane Prince, Chief Operating Officer of Corporate Development. "We thank and congratulate all of our partners and clients who help bring these fantastic projects to fruition and we look forward to working on the next big project".

Delcan, founded in 1953 and operating globally, is a multidisciplinary, engineering, planning, management and technology firm that provides a broad range of integrated systems and infrastructure solutions within the Rail and Transit, Roads and Highways, Structures, Water, Freight and ITS markets, including a full suite of ITS products. Delcan's innovative infrastructure and systems solutions are client-centric, combining high-quality with cost-effectiveness.
